GIORNATA DI STUDIO GUIDO TARONE

22nd May 2017, MBC, Aula Darwin

10-10.50: Roberto Chiarle, “Mechanisms and modulation of genomic instability in lymphoma”, Harvard Medical School, Boston, USA.

10.50-11:10: Short talk, Danny Incarnato, “Principles of in vivo RNA folding”, Hugel, Torino, Italy.

11:10-11.30: Short talk, Sharmila Fagoonee, “Role of ESRP1 in colorectal cancer progression”, MBC, University of Torino, Torino, Italy.

11:30-12.20: Alberto Bardelli, “Cancer evolution as a therapeutic target”, IRCCS, University of Torino, Candiolo (TO), Italy.

12:20-13:30: Lunch

13:30-14:20: Senthil Muthuswamy, “Cell Polarity and Organoids: New pathways and models for controlling cancer”, Harvard Medical School, Boston, USA.

14:20-14:40: Short talk, Paolo Ettore Porporato, “Mitochondrial metabolism on tumor progression and metastasis”, MBC, University of Torino, Torino, Italy.

14:40-15:00: Short talk, Miriam Martini, “PI3K-C2 α is required for mitotic spindle assembly and genomic stability in breast cancer”, MBC, University of Torino, Torino, Italy.

15:00-15:50: Pier Paolo Di Fiore, “Towards a stem cell-specific therapy of breast cancer”, IFOM, Milano, Italy.

15:50-16:10: Vincenzo Salemme, “p140Cap limits ERBB2 breast cancer progression and influences the tumor microenvironment”, MBC, University of Torino, Torino, Italy.

16:10-17:00: Alberto J. L. Macario, “The expanding field of chaperonopathies: a challenge for physicians and researchers in the biomedical sciences”, University of Maryland at Baltimore, Baltimore, USA.

17:00-17:50: Pier Paolo Pandolfi, “Ultra-Precision Medicine in Biomedical Research”, Beth Israel Deaconess Cancer Center, Harvard Medical School, Boston, USA.

17:50-18:20: Closing remarks and “Premio Guido Tarone 2017” Award.

Sponsored by
Dottorato in Scienze
Biomediche e
Oncologia

Attendance is free, but registration in advance is required.
Please register by **12th May 2017** sending an email to: **taroneday@gmail.com**
